Editorial
I am pleased to have the opportunity to introduce the European intellectual property rights act for the research community.

IPR HELP DESK
In the introduction to the intellectual property rights act for the research community, I have the opportunity to introduce the research community to the IPR Helpdesk, an internet site in which you can find information on intellectual property rights.

IPR HELPS PARTNER
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

Impact of the search
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

Copyright law
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

Patent law
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

News
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

Cost analysis
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.

Editorial Board
The objective of the intellectual property rights act for the research community is to ensure that the research community has access to the best intellectual property rights information available.
